

Free E-Waste Recycling Event

*Is your electronic waste piling up? Join us for a **FREE** collection event for household & business generated e-waste hosted by Urban Corps.*

EVERY POUND OF E-WASTE COLLECTED WILL HELP BENEFIT: The BES School Garden

When: Friday, April 22nd

Where: Bonsall Community Center

Time: 7:30am- 12pm

Why: Electronic products are made of a variety of toxic materials, including lead, nickel, cadmium, and mercury, all of which can negatively impact human health and the environment if mismanaged at disposal. Recycling electronics recovers valuable materials and, as a result, helps reduce greenhouse gas emissions and pollution while saving energy and resources by extracting fewer raw materials from the earth.

In addition, by participating in this event you are helping the non-profit organization Urban Corps achieve its mission of providing green job training and education to at-risk youth.

IMPORTANT: As a general safety precaution, always make sure information in data storage devices, such as computers, smartphones, copiers, etc. is completely removed prior to donation or recycling.
